

DISCOVERERS Autumn Term

English

In English we will be looking at *Escape from Pompeii* by Christina Balit. We will be writing as if we were Tranio and Livia trying to escape before Mount Vesuvius erupts. We will also write a diary entry of the events that took place.

PSHE

Maths

In maths we will be building on skills learnt in previous years. Our first topic is place value. We will be learning how to represent numbers in different ways, compare them and finding tens, hundreds and thousands more and less than a given number.

Music

Science

Science is timetabled for Wednesday afternoons. This term our topic is light. We will conduct a range of experiments to explore how light travels through different materials – opaque, translucent and transparent. We will also discuss and explore how shadows are formed and why they change shape depending on the position of the sun or the source of light.

History

RE

Art

In our art lessons we will be developing a variety of different skills and techniques to create pieces that link with topics we are doing in other subjects. For example we will use oil pastels to create volcano artwork to link with English and Roman shields to link with geography and history.

PE

PE lessons will be taught by Mrs Royal on Tuesdays and Thursdays. The first sports for this term will be football and middle distance running.
